Profile

Third-year Computer Engineering student with a strong foundation in **Fullstack Development** and **Data Structures & Algorithms** (DSA). Actively honing front-end and back-end skills through hands-on projects and competitive programming. Passionate about translating complex technical concepts into impactful solutions, with a focus on clarity, performance, and real-world relevance. Seeking internships and collaborative opportunities that challenge my problem-solving abilities and contribute to meaningful innovation.

Projects

Hostel Management System

Technologies Used: HTML, CSS, Bootstrap, JavaScript, PHP, MySQL.

- Developed a responsive web application to streamline hostel room booking and management.
- Integrated real-time room availability check, secure student login, and online fee payment with automated PDF receipt generation (TCPDF) and email confirmations.
- Built an admin dashboard to manage student records, approve Wi-Fi requests, and resolve complaints efficiently.

To-Do-App

Technologies Used: MongoDB, Express.js, React.js, Node.js, TailwindCSS, CSS, JavaScript

- Built a full-stack task management app with user authentication (login/register).
- Implemented task creation with deadlines and status tracking (active, pending, completed).
- Designed an intuitive UI for task organization and progress monitoring.
- Applied CRUD operations and structured workflow to improve productivity management.

Student Management System

- Developed a Student Management System in C++ applying core OOP principles.
- Implemented modules for adding, updating, and deleting student records.
- Designed functionality to calculate SPI based on subjects and credits.
- Utilized encapsulation, inheritance, and polymorphism for modular, reusable code.

Education

B.tech in Computer Engineering

Birla Vishvakarma Mahavidyalaya

CPI 9.04

2023 – present
V.V.Nagar, Anand, India

Skills

Programming Languages: C | C++ | JavaScript | Python | Java

Tools: PostgreSQL | Visual Studio Code | Git/GitHub

Technologies: HTML | CSS | Bootstrap | TailwindCSS | React.js | MongoDB

Soft Skills: Communication Skill | Problem Solving | Team Work

Competitive Programming

- Solved **300+ DSA problems** on LeetCode, CodeChef, HackerRank, GeeksforGeeks, and Coding Ninjas.
- Strengthening core concepts in **Data Structures and Algorithms** through regular practice.
- Participated in various online contests to improve problem-solving **speed** and **accuracy**.

Volunteer

Coordinated with faculty to execute a class **Aptitude Contest** for over 50 participants.

2025/09 – Present

Publicity Head of CSI BVM SB

2025/09 – Present

Web Developer of CSI BVM SB

2024/10 – 2025/09

Certificates

E-Business by NPTEL

Developing Inter-Personal Skills by Coursera

Participation in **KowHow'25** - Pragyan by TPC BVM
